

Guide to supporting your Year 7 child with Google Classroom - Blatchington Mill School - September 2020

How to log on to Google Classroom:

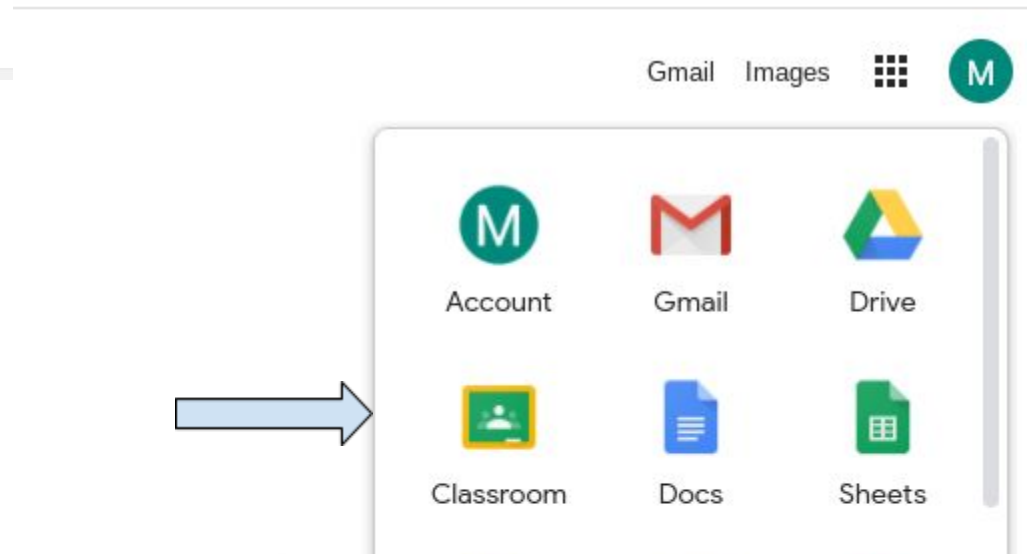

When your child opens their chromebook they should be able to see the 'Google Classroom' icon which they need to click on.

If they're using a different device they can still log on by accessing their Google Account (they'll need their Blatch email address and password) and clicking on the boxes in the top right hand corner.

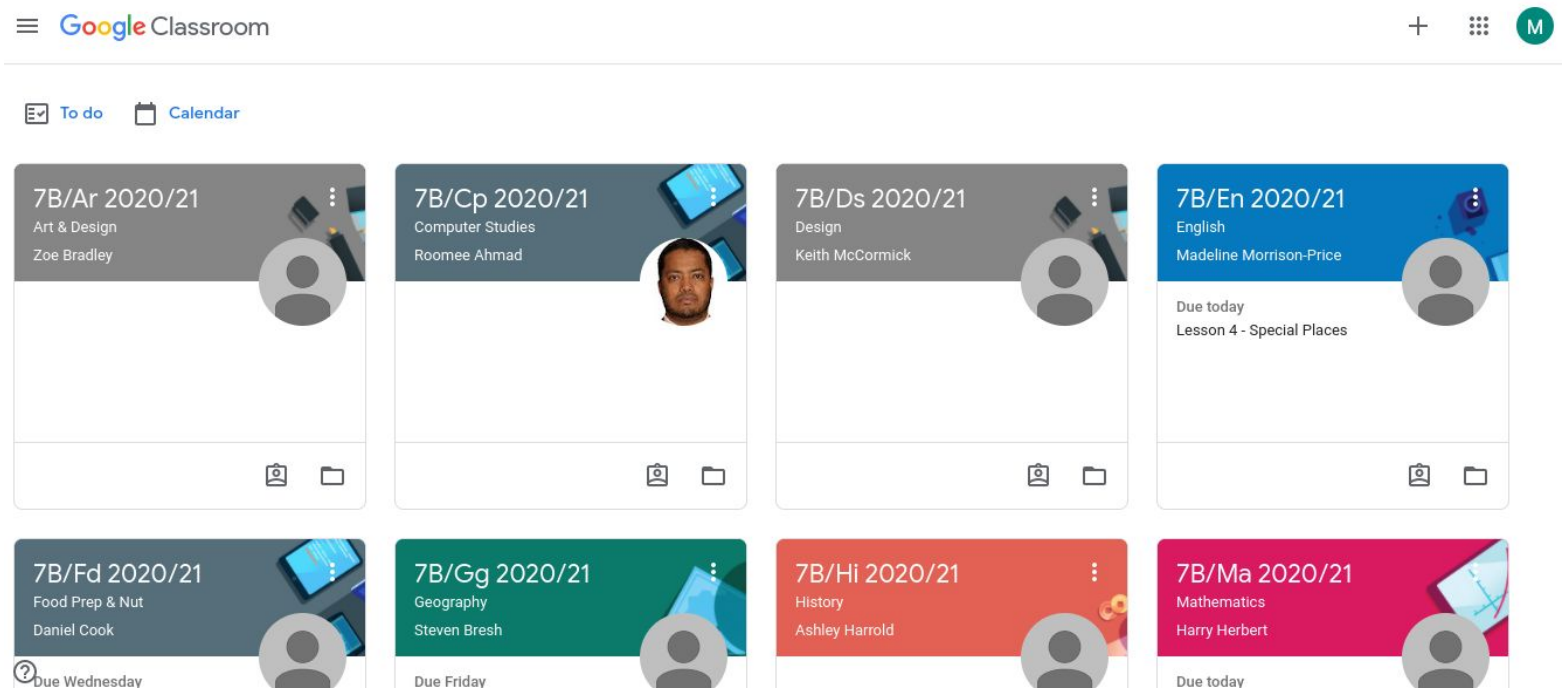

This will also bring up the 'Google Classroom' icon.

This will take you to a screen which shows you all the different classrooms that your child is part of.

Each one is labelled according to the subject and includes your child's bubble group and their teacher's name.

How to find your child's work:

If you click on the title of each classroom it will take you into the classroom, for example here Maths:

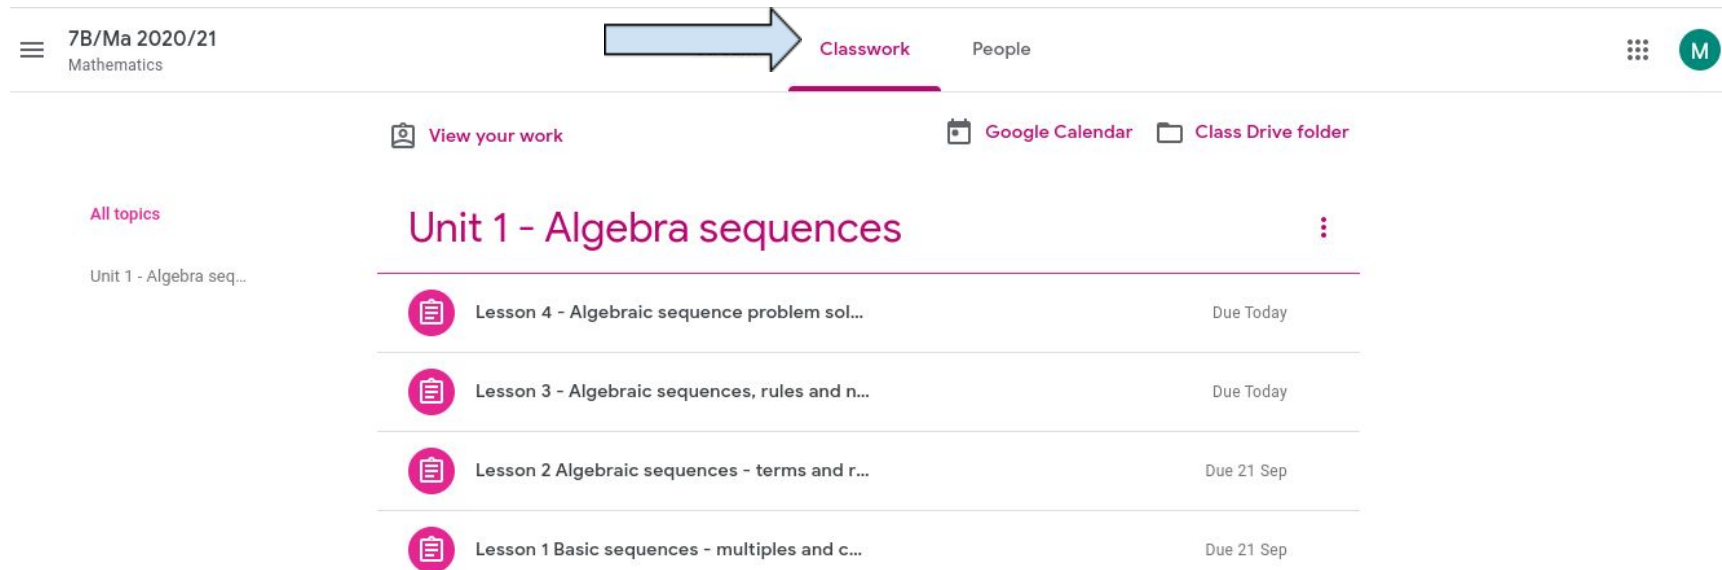

The screenshot shows a classroom interface for '7B/Ma 2020/21 Mathematics'. At the top, there is a navigation bar with a hamburger menu icon, the classroom name '7B/Ma 2020/21 Mathematics', and three tabs: 'Stream' (highlighted in pink), 'Classwork', and 'People'. On the right side of the navigation bar, there is a grid icon and a circular profile icon with the letter 'M'. Below the navigation bar is a large pink banner with the text '7B/Ma 2020/21 Mathematics' and an illustration of a tablet displaying a graph, a calculator, and a notebook. Underneath the banner, there are three main sections: 1. 'Upcoming' section with a list of 'Due today' items: 'Lesson 4 - Algebraic sequ...' and 'Lesson 3 - Algebraic sequ...', and a 'View all' link. 2. A 'Share something with your class...' input field with a person icon. 3. A 'Stream' section showing two assignment posts by 'Harry Herbert': 'Lesson 4 - Algebraic sequence problem solving' dated '23 Sep' and 'Lesson 3 - Algebraic sequences, rules and nth te...' dated '22 Sep'. A question mark icon is visible in the bottom left corner of the page.

It will automatically show you the 'Stream' which lists all assignments, comments and messages that the teacher has posted.

If you click on 'Classwork' this will show you all the work that has been set, which will be labelled to show you which lesson in the sequence it is.

The purpose of having all lessons posted on Google Classroom is twofold:

1. To ensure that any students who are self-isolating are able to immediately access their lessons each day and therefore don't miss out on any learning.
2. To enable students to revisit their lessons to check their understanding and review anything they aren't sure about - at any point

The box in the top right hand corner shows your child's work (there may be documents pre-made for them to fill in or they can use the 'Add or create' tab to add/create a document for their answers).

When they are ready to hand their work in they click 'Hand in' and it will be submitted to the teacher.

How to find your child's 'Home Learning':

All 'Home Learning' Google Classrooms for Computing, Geography, History and RE are now labelled clearly as being 'Home Learning' so that they are easier to find.

Your child will have 1 or 2 of these depending on their bubble group. They will have one lesson per subject to complete each week.

French and Spanish 'Google Classrooms' will include both the lessons taught in school and the 'Home Learning' lesson for the week:

Autumn 1 - Lesson 4 - Y7 Spanish + Home Learning (Lesson 5)

James Harris • 24 Sep

Due 1 Oct, 08:30

Hola Year 7,

Here is the video recording and activities for today's Spanish lesson for those learning from home or for anyone wishing to review the material.

For HOME LEARNING this week, download and complete worksheet (HOME LEARNING - Autumn 1 - Lesson 5 - Y7 Spanish) before submitting back to me before the due date.

Gracias,
Señor Harris.

How to check whether your child still has work to do:

The top left hand corner of the 'Google Classroom' homepage has the 'To do' icon which will take you to the list of work your child hasn't handed in.

HOWEVER this may currently include all the lessons they have attended in school prior to using chromebooks in their lessons.

As they start to use the chromebooks in lessons we will ask teachers to remind students to click 'Hand in' when they've completed the lesson in class to show it's completed.

You can see work set under the 'Assigned' tab and work not handed in under the 'Missing' tab. Please do not worry about this - we will support all students to manage these tabs in school.

The screenshot shows the 'To do' page in Google Classroom. At the top, there is a navigation bar with 'To do', 'Assigned', 'Missing', and 'Done' tabs. The 'Assigned' tab is selected. Below the navigation bar, there are two summary rows: 'No due date' with a count of 30 and a downward arrow, and 'This week' with a count of 9 and an upward arrow. Below these are five individual work items, each with a document icon, a title, a date, and a due time.

Item	Due Date	Due Time
No due date	30	▼
This week	9	▲
Lesson One Home Learning - RE		Today, 23:59
Lesson 3 - Algebraic sequences, rules and nth term 7B/Ma 2020/21		Today, 23:59
Lesson 4 - Algebraic sequence problem solving 7B/Ma 2020/21		Today, 23:59
Year 7 Athletics lesson 4 (for those not in lesson) 7B/Pe 2020/21		Today, 23:59
Year 7 Hockey Lesson 1 (for those not in the lesson) 7B/Pe 2020/21		Today, 23:59

To clear any work that is labelled as 'Missing' students click the hand in button on their lesson.

Athletics- lesson 3 (for those not in lesson)

Madeline Morrison-Price • 08:02

Due Today

Good morning Yr7
If you are working from home, please watch the video and then complete all the tasks in Google Slides.
If you are working in class, I will talk you through the slides.

I look forward to you working on your chromebooks!

Ms Morrison-Price
