

Further Maths Revision Information

Further Maths Revision List

Here is the [Further maths](#) revision lists with a breakdown for each paper

Further Maths Revision Notes

[Complete Revision Notes 1](#) - This document is more user friendly and doesn't go into so much detail as the second one.

[Complete Revision Notes 2](#) - This one has more detail and examples and also has a helpful "what can go ugly" section that has common mistakes students make.

Practise Worksheet

Some of these are quite tricky but definitely worth spending some time working on and making sure you understand. The Corbett Maths questions below are slightly easier to work through.

Questions	Answers
Circles	Circles
Differentiation	Differentiation
Factor Theorem	Factor theorem
Functions	Functions
Matrices	Matrices
Sequences	Sequences
Trigonometry (GCSE topics but harder)	Trigonometry (GCSE topics but harder)
Trigonometric Equations and Identities	Trigonometric Equations and Identities
Other Topics	Other topics

Other Resources:

- [Corbett Maths](#) to access extra questions and videos on any topic you'd like. The questions start off quite easy but can get challenging.
- [Hegarty Maths](#) can be used to support your revision of these topics, simply type the topic into the search bar and it will display a video/quiz for each.
