March 2018

Welcome to Blatch!

We are very pleased that you will be joining us in September and hope you are already now beginning to look forward to it. I think you've made a great choice to join our school and over the next few months it will begin to dawn on you – if it hasn't already – what a big change this will be.

Between now and July I know you'll enjoy your remaining time at current school.

In the next few months there will be lots of communication between current school and us here at Blatch. This will be to make sure we are ready for you and you are ready to join us in September with all the necessary equipment and uniform.

At Blatch we are very proud of our students and all they achieve. This isn't just in class but also in sport, performing arts, leadership, community activities and lots of other areas. We want to find out what your special talents and skills are, and I'm sure you'll find something to do here beyond your lessons!

We will have really high expectations of you – and you shouldn't be worried at all by that. It just means we want you to do your absolute best in every way. When you join in September we'll make sure you understand what you need to do to be successful at Blatch – but it all comes down to trying your hardest, being kind and considerate to others, and having a sense of fun and excitement about learning and school.

In the meantime if there is anything you are worried about to do with moving up to Blatch then please let us know and we will do everything we can to help.

Yours faithfully

Mr Harrold
Head Teacher
